***Election/Restrictions***

Newly submitted claim 65 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claim adds a silver compound not found in the original claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 65 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claim 65

The following is an examiner's statement of reasons for allowance: The prior art neither teaches nor fairly suggests the instant combination of a chlorhexidine free base and a chlorhexidine salt used as part of an antimicrobial polymeric coating for a medical device. The closest prior art is that of Solomon et al (US Patent No. 5,707,366) which includes either a chlorhexidine salt or chlorhexidine free base. The patent lacks a teaching of combining the two forms in as part of an antimicrobial solution added to the polymeric device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
